*Non-duplication clause? We have recently noticed that many insurance carriers are imposing a non-duplication of benefits (carve out) “clause” for coordination of benefits on some employer group contracts. So, if the insurance carrier is the secondary carrier, the claim payment is determined as follows: “Payment is determined by deducting the primary carrier’s payment from the procedure and then paying the additional amount after adjusting out the amount the primary paid. Usually, this results in no additional payment or a small amount of benefits paid out based on the contract fee schedule. Patients with dual coverage will often think that they have 100% coverage. Unfortunately, this is not the case with non-duplication clauses.
